

Jacob Jensen Design, a Danish brand, is Scandinavia's oldest and most award winning design consultancy. It was established in 1958 by Jacob Jensen. He was represented in museums all over the globe, among these The Museum of Modern Art (MoMA) in New York, where 5 of his products are included in their permanent collection. Christian Holmsted Olesen, Curator at The Danish Museum of Art & Design, writes that with regard to his design historical importance, several of Jacob Jensen's works can be seen as "sophisticated extracts of 20th century design". Jacob Jensen was for many Danes the very symbol of good design, mainly due to his work for B&O.
